Immortal Video Eye Gear Sunglasses

Base Price: UDS396.

Wish to record videos of beautiful sceneries or the beautiful and handsome passers-bys along your journey? The Immortal Video Eye Gear is specially made for you to record video on the run. The device is to be worn by the user like a regular pair of sunglasses, although it boasts a little sporty and futuristic look.A British designed eyewear as well as video recording sunglasses dubbed as Immortal Video Eye Gear capable of recording 25fps video at 736×480 resolution.

It has 3MP camera and 4GB of built-in storage space.The flash memory can store about 3 hours of video. Moreover, after fully charged, the built-in 500mAh battery can offer 2 hours of running time. You could also use it as a sunglasses. However, no info that Immortal Video Eye Gear Sunglasses are waterproof. Somehow it always feels like a bad idea to pack technology into sunglasses. To that effect we've seen many "hidden DVR sunglasses" floating around. But Immortal Video Eye Gear promises to be more extraordinary then the likes of what you'll find floating around on eBay. Immortal Video Eye Gear sunglasses is available in three types according to the different colors in eyeglass, including clear, grey, and orange

Many sports lovers earlier might have tried fixing a camera on the helmets to capture the exciting experiences. But now the Immortal Video Eye Gear sport sunglasses can handle it with ease.
